

VISHAL SHUKLA

shuklav8552@gmail.com | +91-9284716995 | GitHub | LinkedIn

Education

Vishwakarma University, India B.Tech in Computer Science and Engineering CGPA: 8.01	2023 – 2027
Air Force School, India CBSE (Class XII) Aggregate: 73.4%	2022 – 2023
Air Force School, India CBSE (Class X) Aggregate: 94.3%	2020 – 2021

Skills

Languages: Java, Python

Frameworks: SpringBoot

Database: MySQL

Tools & Technologies: GitHub

Deep Learning: ANN, CNN, RNN

Machine Learning: Linear Regression, Logistic Regression, K-Nearest Neighbors

AI Domain Expertise: Natural Language Processing (NLP)

Projects

File Encryptor Link	Jan 2024 – Jan 2024
- Built a Spring Boot + React application that compresses and decompresses files. - Used Huffman coding algorithm for compression logic. - Provided Docker containerization for deployment.	
Gemini Chat-bot Link	March 2024 – March 2024
- Built a Spring Boot + React chatbot for real-time dynamic Q/A. - Integrated the application with Gemini API for real-time responses. - Used Bootstrap for interactive frontend UI.	
Virtual Mouse Controller (using OpenCV) Link	Nov 2024 – Nov 2024
- Engineered a gesture-controlled virtual mouse leveraging OpenCV, Mediapipe, and Autopy. - Used Mediapipe's hand tracking module to extract 21 landmarks and map gestures to mouse actions. - Integrated gesture classification for pointer and click detection using Euclidean distances.	
Virtual Volume Controller (using OpenCV) Link	Nov 2024 – Nov 2024
- Built a real-time hand gesture-based volume control system using OpenCV, MediaPipe, and PyCAW. - Used linear interpolation (np.interp) to convert hand distance into decibel volume range. - Integrated PyCAW APIs for precise Windows audio endpoint control.
